

MultiRELOAD

PORT SOLUTIONS FOR SUSTAINABLE MOBILITY

Newsletter

MultiRELOAD Newsletter 2026 February

Today marks the end of the MultiRELOAD project. We look back on the past 42 months with pride and are grateful for the opportunity, the dedicated work of our partners, and the results we have achieved. Below is a brief summary of the most important events of the past few months.

[Inland Ports Innovation Days 2026 – A strong finale for MultiRELOAD](#)

On February 11th and 12th, Duisburg showed what happens when European innovative strength meets port expertise and a bit of Rhenish exuberance.

The Inland Ports Innovation Days - hosted by MultiRELOAD were the grand finale of a project that has proven: Great. Great value.

[Logistify: Understanding the World of Logistics](#)

We're excited to introduce: Logistify — the new logistics learning game from MultiRELOAD

<https://logistify.app/>

As part of the **HORIZON Europe project**

MultiRELOAD, University of Applied Sciences Upper Austria has developed *Logistify*, an interactive online game that brings complex logistics concepts to life in a playful, intuitive way.

[From innovation to impact: Seven demonstrators for smarter multimodal ports](#)

In the MultiRELOAD project, we carried out pilot projects in **7 different areas**, the results of which we are proud of. Each demonstrator addressed a **concrete operational challenge in inland ports and multimodal corridors** – from fragmented cargo flows and inefficient handling to limited digital visibility and increasing sustainability pressure.

[Watch now: Quick facts from the MultiRELOAD project](#)

What can a high-capacity rail unit, smart cameras and predictive tools have in common? In this short video, we share a few interesting and sometimes surprising facts from the multi-reload project and its seven demonstrators.

In just a couple of minutes, you'll get a light, accessible glimpse into how innovation is being tested in inland ports and multimodal logistics across Europe.
